

24/7 heat exchanger service

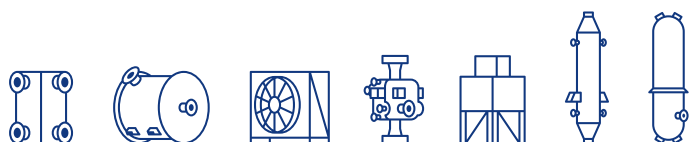

With Troubleshooting Assistance, it's no trouble at all

Service and support are just a scan away

You already rely on Alfa Laval for the most efficient, dependable heat exchangers on the market.

Our new digital Troubleshooting Assistance service puts the experience, insight and expertise of Alfa Laval at your fingertips. Simply scan the QR code on your Compabloc or Spiral heat exchanger for access. We'll guide you through a few questions and help you diagnose and solve your issue.

Improving sustainability with welded solutions
